Send Us Your Comments

Aras Corporation welcomes your comments and suggestions on the quality and usefulness of this document. Your input is an important part of the information used for future revisions.

- Did you find any errors?
- Is the information clearly presented?
- Do you need more information? If so, where and what level of detail?
- Are the examples correct? Do you need more examples?
- What features did you like most?

If you find any errors or have any other suggestions for improvement, indicate the document title, and the chapter, section, and page number (if available).

You can send comments to us in the following ways:

Successive menu choices	Successive menu choices may appear with a greater than sign (>) between the items that you will select consecutively. Example: Navigate to File > Save > OK .

1 Client Configuration

1.1 Installed Software

Aras Innovator 11 requires the use of Mozilla Firefox version 31 ESR.

1.2 Required Settings

The following steps may require administrative rights to complete.

1. Open a new Firefox window and browse to Aras Innovator.
2. The first time you connect to Aras Innovator, you are prompted that Aras Innovator is attempting to run an add-on to Firefox. Click **Allow**.

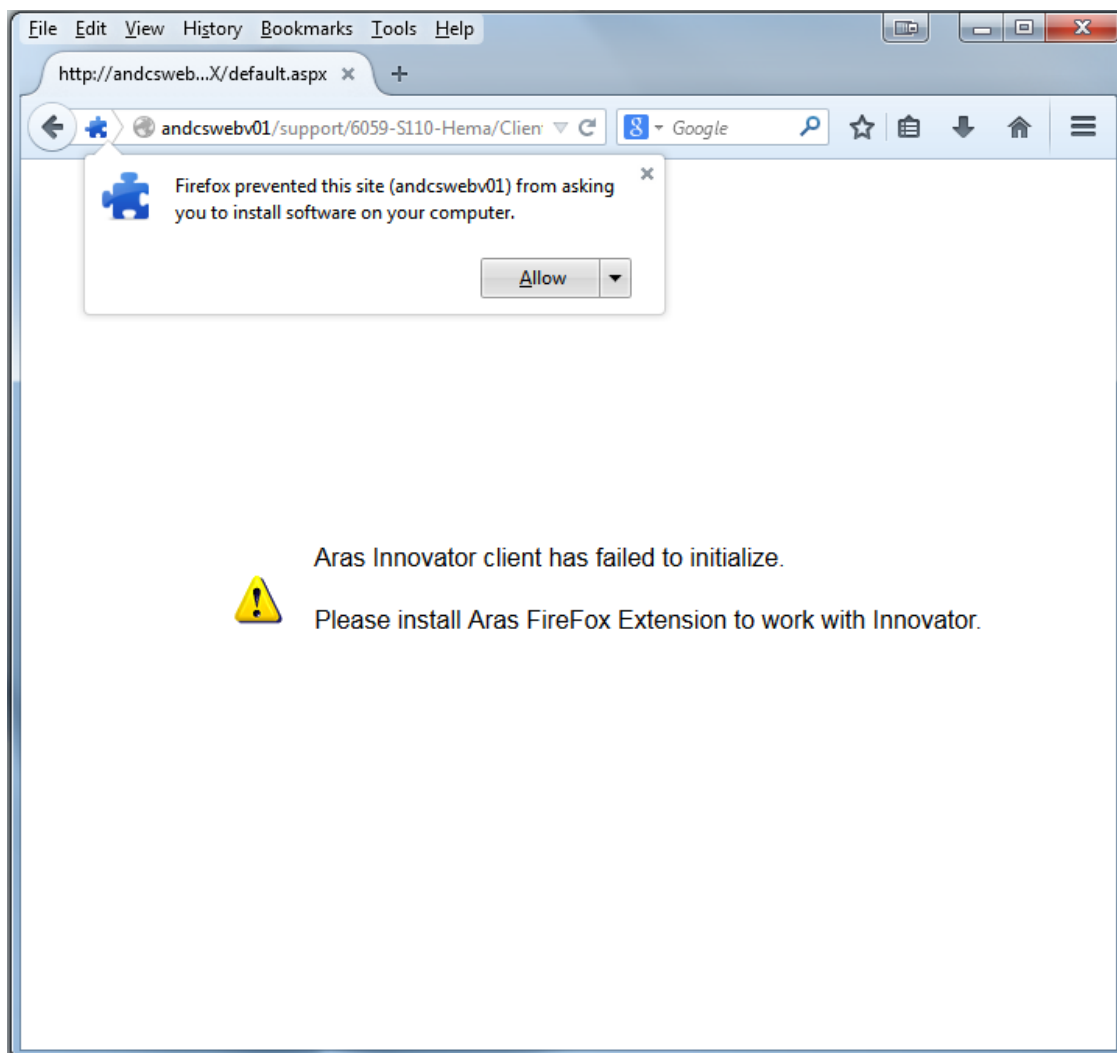

Figure 1.

3. Next you are prompted to install the add-on. Click **Install Now**.

Figure 2.

4. Once installed, you are prompted to restart Firefox to initialize the add-on. Click **Restart Now**.

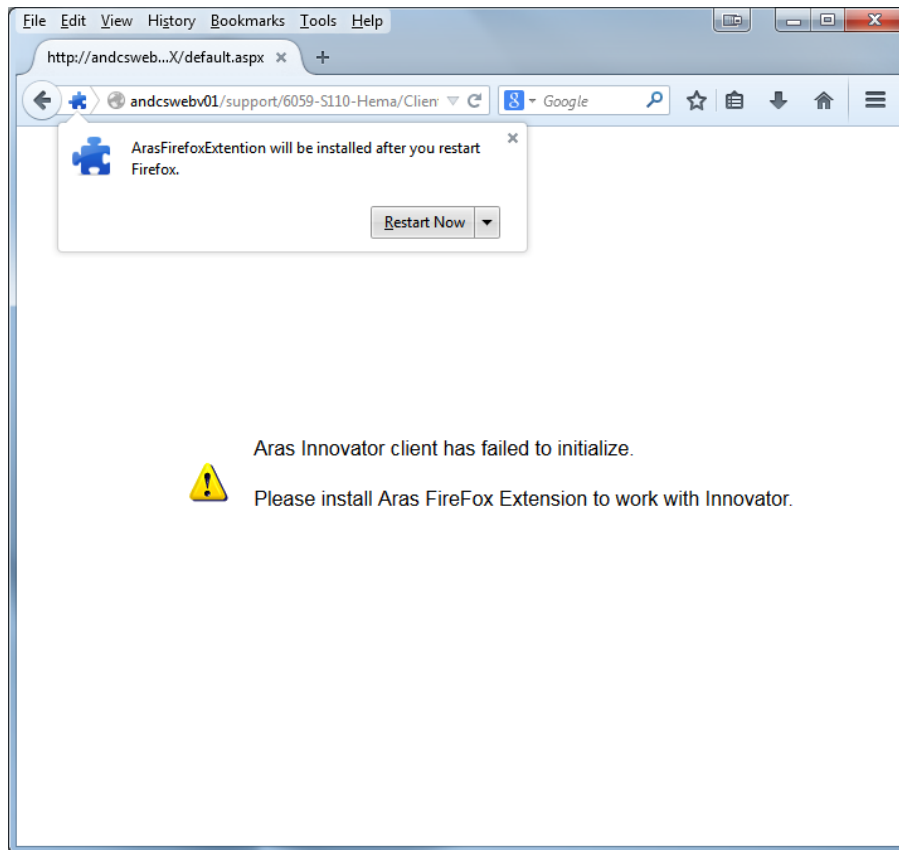

Figure 3.

5. Click **OK** to permit the add-on to alter your Firefox settings to allow Aras Innovator access to your system for checking Files in and out of the system.

Figure 4.

Note: This operation should only be done for trusted sites.

6. You should now be able to log into Aras Innovator.

Figure 5.

1.3 Optional Settings

The Gantt chart in Aras Innovator may appear different when printed. The printed Gantt chart may appear different due to the missing background colors and images. You can fix this issue by configuring few settings on the client machine.

To fix or prevent this issue, you can configure the following settings:

1. Open Firefox browser.
2. Navigate to **File --> Page Setup**.

The **Page Setup** dialog box is displayed.

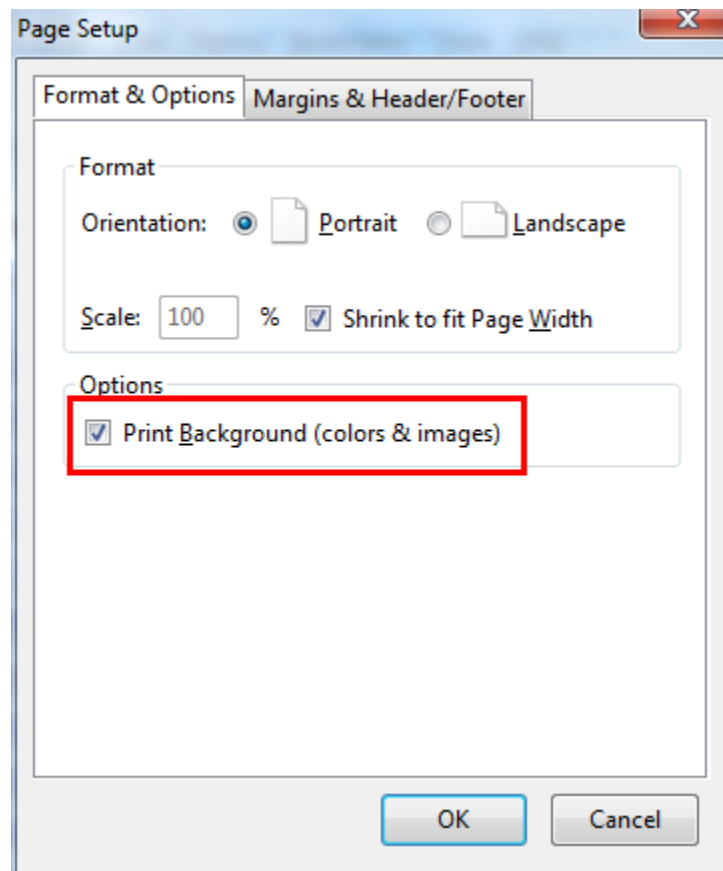

Figure 6.

3. Select **Print Background (colors and images)** check box.
4. Click **OK**.

2 Troubleshooting

In this section, we outline some of the common problems people can encounter with the setting up the client.

2.1 My pre-defined language pack and locale are not properly displaying when connected to Aras Innovator

The localization settings for the client are pulled from the 'Languages' setting of Firefox browser as opposed to the 'Region and Language Settings' of the system.

To change the language settings, refer to the steps below:

1. Open Firefox browser, and go to **Tools > Options**.
2. Select the **Content** Tab.
3. In the **Languages** section, click **Choose**.

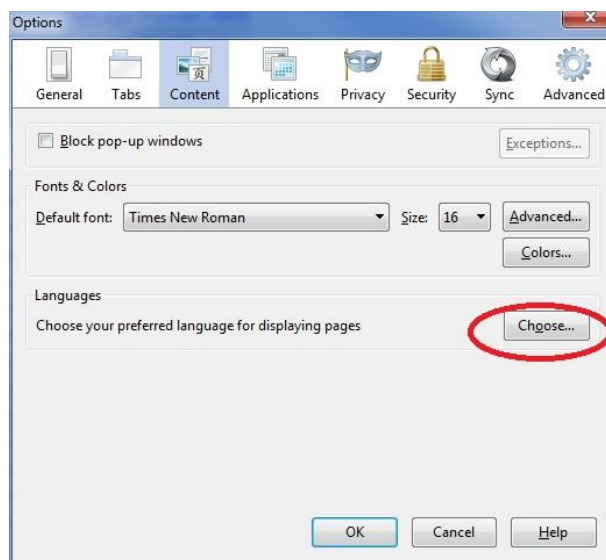

Figure 7.

4. In the **Languages** dialog box, click **Select a language to add...**
5. Select the required language and locale. For example, Japanese [ja-JP].
6. Click **Add**.
7. Move the selected language to the top using **Move Up**.

Figure 8.

8. Close the browser.
9. Login to Aras Innovator as administrator/innovator.
10. Confirm that the selected language is applied.

2.2 Firefox Allows Maximum 20 Pop-ups

A user cannot open more than 20 pop-up windows in Firefox browser. By default, Firefox allows maximum 20 pop-up windows. The following error is displayed.

Figure 9.

To resolve this issue, follows the steps below:

1. Open a Firefox browser.
2. Type in about:config.

The following warning message is displayed.

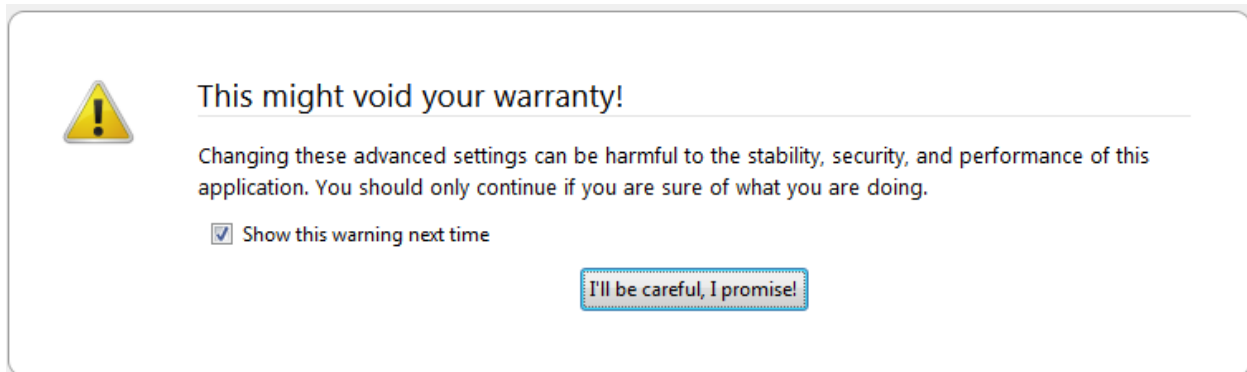

Figure 10.

3. Click **I'll be careful, I promise!**.

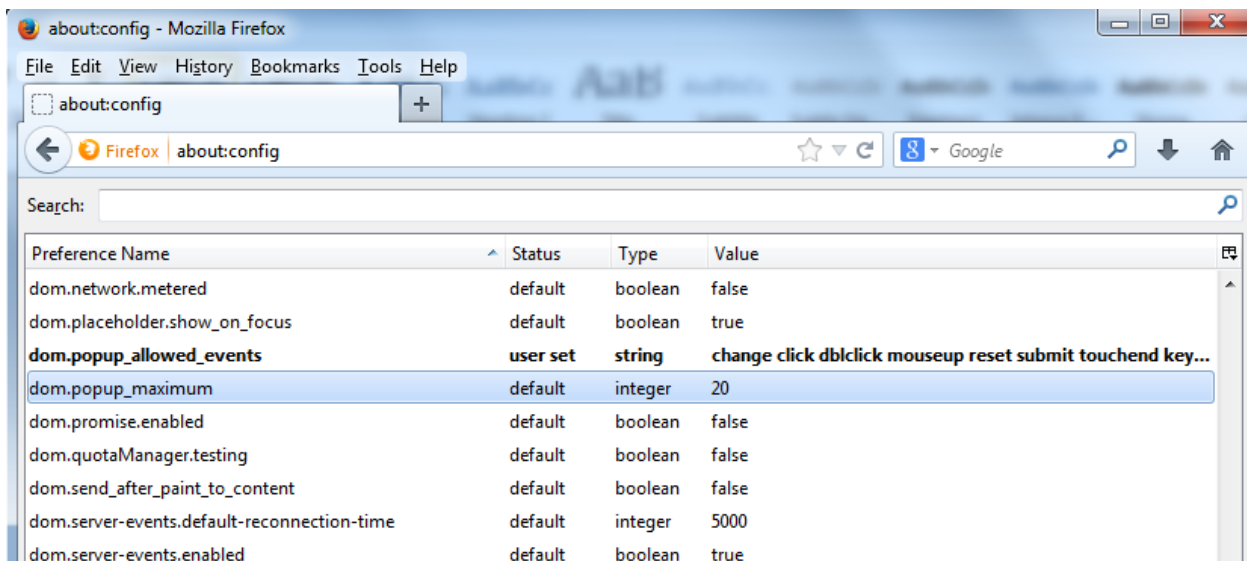

Figure 11.

4. Scroll to locate `dom.popup_maximum`, right-click and select **Modify**.

The **Enter integer value** pop-up is displayed.

Figure 12.

5. Specify a very high integer value such as 5000 for `dom.popup_maximum`.
6. Click **OK**.

2.3 .hwf file not displayed in the viewer

When a user clicks on the “3D Viewer” icon on the sidebar of an Item window, .hwf file must be displayed in the Viewer. But the user sees an error and the file will not be displayed.

To resolve this issue in Firefox, follows the steps below:

1. Open a Firefox browser.
2. Type in about:config.

The following warning message is displayed.

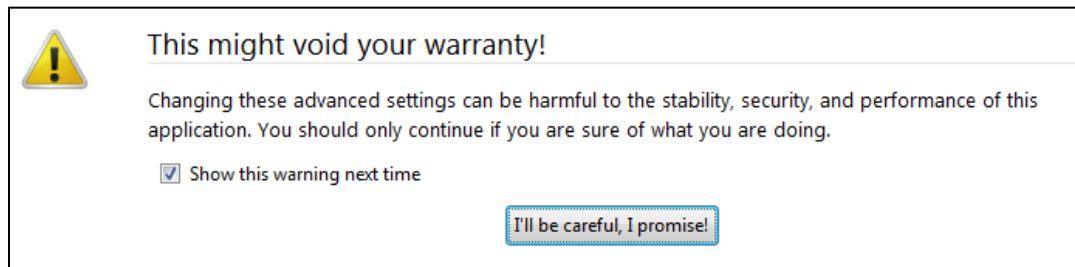

Figure 13.

3. Click **I'll be careful, I promise!**
4. Type “webgl” in the search input.

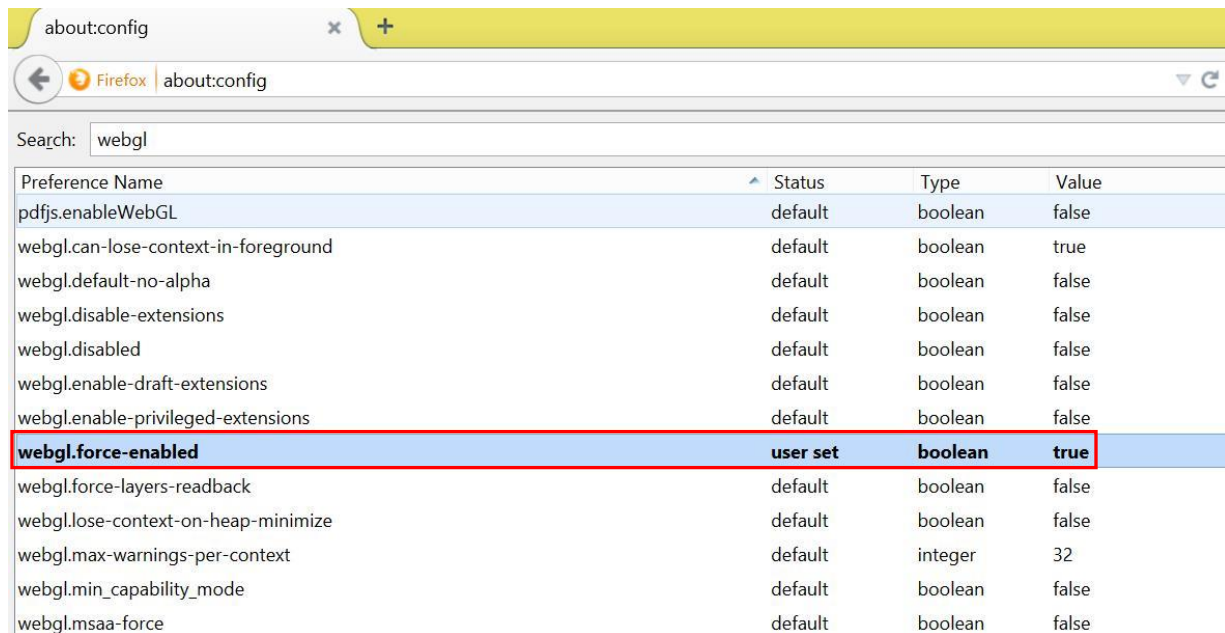

Figure 14.

5. Set “webgl.force-enabled” = “true”
6. Close and restart Firefox.
7. Login to Aras Innovator as an administrator.
8. Click on the 3D viewer icon on the sidebar of an Item window to confirm if the .hwf file displays in the viewer.
